Paul,

Thanks for submitting this chart. We should have a discussion about this topic this week. Jeff, please check on Patty and Frank's availability this week. Paul, you should do the same for Milt and possibly Kory.

Jim

Subject: RE: April 3rd Meeting Summary and Proposed Conference Call

Jim,

We have been mulling this question over. Quite frankly, having a "simple" discussion about the RAO proved more elusive than we hoped. To help us, we put the attached table together to try and see how it all fits. Also, in digging into this we discovered the MDCH changes to the fish advisories and incorporated those into our table. We were hoping to get a call with you guy's to discuss. It may be prudent to bring Kory from MDCH on the call for a bit, to help understand the changes (or that could be a separate call). We are working up some revised text and will get that to you shortly. Let me know, I will coordinate schedules, but sometime next week is doable for us.

Paul

Paul and Jeff,

What do you guys think about item #2 in this attachment. Can you check with both Milt and Frank. I thought the 100% bass diet Sport Angler was the CTE? And that's what we included in RAO 1. Let me know what I am missing here.

Thanks

Jim

Subject: April 3rd Meeting Summary and Proposed Conference Call

Jim,

The attached letter documents Georgia-Pacific's understanding of the discussions we had during our meeting in Chicago last week. Please let us know if it is alignment with your takeaways from the meeting.

We would also like to propose a follow up conference call to discuss several additional comments that we were not able to get to during the meeting. In an effort to capitalize on our remaining time, I suggest we schedule this as early next week as possible.

Please let us know your availability for a call.

Thanks,

L. Chase Fortenberry, P.G.
